

RAHUL SHAH

FULL-STACK & BLOCKCHAIN ENGINEER

PERSONAL STATEMENT

Full-stack and blockchain engineer with 4+ years shipping DeFi, DEX, on-chain indexing and Web3 gaming products across Story, Sui, Aleo and EVM chains. Built Elitra, an onchain asset-management and personal finance platform. Strong in smart contracts, backend systems and on-chain data.

WORK EXPERIENCE

ELITRA — elitra.xyz
JUL 2025 - OCT 2026

- Built an onchain asset-management platform, from NAV tracking of third-party curators and vaults to personal finance management.
- Designed modular execution units (DCA, swaps, buys and sells) across stocks, crypto and commodities.
- Integrated AI systems that recommend portfolio actions to users.
- Built a finance radar for market research and asset discovery.

STORYHUNT — storyhunt.xyz
AUG 2024 - JUL 2025

- Developed a permissionless DEX on Story Chain, backed by Story Foundation, owning smart contracts, backend services and indexing systems.
- Engineered a smart order router to find optimal swap paths and improve execution and liquidity usage.
- Implemented Uniswap v3-style concentrated liquidity and The Graph subgraphs for real-time on-chain data.

INFINITE SEAS — infiniteseas.io
JUL 2024 - AUG 2024

- Created 2D strategy-based Web3 games with on-chain assets.
- Used Phaser and the MUD framework (mud.dev) to build sea-navigation and real-world map gameplay.

VENTURE23 — FULL-STACK & BLOCKCHAIN ENGINEER
AUG 2022 - JUL 2025

- Delivered frontend, backend and smart contracts across Sui, Aleo, Icon and EVM chains for clients including Anichess and Gangstaverse.
- Built a plug-and-play referral/quest system scaling to 10K+ daily users, an Aleo chain indexer, and Three.js/WebSocket game systems.
- Earlier: iBriz.ai intern (2022), LIS Nepal data intern (2022–23), freelance smart contract developer (2022).

EDUCATION

BACHELOR'S IN COMPUTER ENGINEERING
Institute of Engineering(IOE), TU
Pulchowk Campus, Lalitpur
2018 - 2023

- Winner of LOCUS Hack-A-Week 2021
- Vice President at ESAJ, Pulchowk
- Pre-event Organizer at LOCUS 2020
- Recipient of Golden Jubilee Scholarship 2018/19

SKILL SETS

- **Languages:** Typescript, JavaScript, Python
- **Tools/Frameworks:** React, Next.js, Node.js, Three.js
- **Database:** PostgreSQL, MongoDB, Graph, Redis
- **DevOps:** Docker, AWS
- **Blockchains:** Story, Sui, Aleo, Icon, EVM

ACHIEVEMENTS

- Paper presentation, SIGUL 2023 (Nepali TTS)
- Author, 4th International KEC Conference 2022
- E-Satya Blockchain Fellowship 2022
- Participant, 7th & 8th IWEEE
- Winner, LOCUS 2021 Hack-A-Week
- AI Fellowship Programme

PROJECTS

- **Elitra — Onchain Asset Management & Personal Finance (elitra.xyz)**
  Project: Designed and built an onchain asset-management platform, from NAV tracking of third-party vaults to personal finance.
  - Modular execution units for DCA, swaps, buys and sells across stocks, crypto and commodities.
  - AI systems that recommend portfolio actions, plus a finance radar for market research and asset discovery.

- **Infinite Seas — 2D Strategy Web3 Game (infiniteseas.io)**
  Project: Worked on a 2D strategy-based Web3 game with on-chain assets, built with Phaser and the MUD framework (mud.dev).
  - Developed sea-navigation mechanics and real-world map gameplay.

- **Storyhunt (Decentralized Exchange DEX)**
  Project: Core developer of Storyhunt, a decentralized exchange (DEX) built on Story Chain and backed by Story Foundation, live at: https://storyhunt.xyz
  - Implemented advanced AMM logic, including features inspired by Uniswap v3's concentrated liquidity.
  - Built a smart order router and multi-SDK integration for seamless swaps and liquidity interactions.
  - Built and maintained The Graph subgraphs for efficient, real-time indexing of on-chain DEX data.

- **Aleo & Sui Projects (Indexing, DeFi, Bridging & Community DApps)**
  Project: On Aleo, worked on bridging (Verulink) and lending (Verulend); on Sui, built Koseli, a community engagement platform.
  - Open-source Aleo indexer service: https://www.npmjs.com/package/aleo-indexer-service
  - Koseli referral/quest system: https://www.npmjs.com/package/@venture23/koseli-referral
  - Community platform (https://koseli.xyz); gift card system demoed at the Paris Sui Conference.

- **Venture23 Projects**
  Project: Full-stack development for blockchain games and platforms.
  - Wonder Game: core game mechanics with Three.js, WebSockets and a microservice architecture.
  - Vendetta (vendettagame.xyz), Anichess (anichess.com), Gangstaverse (gangstaverse.co).

- **Academic Projects**
  Team-project: Worked on NLP, mobile and blockchain projects during my degree.
  - Shruti (major project): Nepali audiobook app using Tacotron2 + HiFi-GAN text-to-speech; presented at SIGUL 2023.
  - D-Shelf (minor project): NFT-based book publishing platform (Hardhat, React, IPFS, ethers.js).
